

RIDE & DRIVE + AMS OPTIMISATION & TURN AUTOMATION DEMO

Your chance to ride and drive a John Deere 9RX 640 with a Horsch Tiger.

Our team is hosting a demo day with the John Deere 9RX 640 Tractor and Horsch Tiger. The bold design of the 9RX Series tractors announces what they're all about: pulling power that stops for nothing and technology that moves modern farming forward.

With the future of autonomy around the corner, we will be testing turn automation and other AMS features on the 9RX.

Tuesday 10th September | 9.00am to 12.00pm
'Caroale' Moree NSW 2400

Features:

- ✓ Minimise soil disturbance without sacrificing performance on the 9RX Four-Track Tractor
- ✓ Excellent power and efficiency from John Deere 9R Series Tractors
- ✓ Optimal performance and power from the John Deere-built engine
